

Geosynthetic Materials Association

The Geosynthetic Materials Association (GMA) provides engineering support, business development opportunities, educational programming, government relations expertise and industry recognition. GMA influences specifications and lobbies on behalf of member companies. GMA targets key U.S. states to expand the geosynthetics market. The Geosynthetic Materials Association provides a network to exchange information, solve common problems and develop mutually beneficial relationships.

BE INFORMED

- Expand your market by lobbying and educating federal and state officials
- Email GMATechline@ifai.com, a free resource for technical answers
- Access industry resources, educational materials and a member directory
