

Welcome to GSI

and a gift of three geosynthetics -related
power point presentations

Titles of Presentations and Size

1. Geosynthetic Reinforced Segmental Retaining Walls (SRWs) - 104 screens
2. Lateral and Vertical Expansions Over Old Landfills - 98 screens
3. Geomembranes Used in Dam Waterproofing and Lifetime Prediction - 69 screens

Some General Introductory Comments

- lectures to follow are free
- short voice-over is on all screens
- they are not encrypted
- they can be reproduced in whole or part
- please give GSI credit when you use them
- even single slides which you might embed into other presentations... thank you and enjoy
